### Sad State In The State Department—

Bryton Barron was in the State Department 26 years, serving under seven successive Secretaries of State. In the June "American Opinion" Magazine Mr. Barron makes another of his eloquent appeals for a full exposure of suspected Communists, known pro-Communists, alcoholics, homosexuals and dupes in the State Department.

"If Congress does not now act promptly and vigorously to remove the danger, then the opportunity to do so may never again be ours, and treason will prevail," says this former Chief of the Treaty Section of the State Department. Mr. Barron quotes from the memorandum signed by the late Scott McLeod, then Administrator of the Bureau of Security and Consular Affairs in the State Department. This memorandum, which was uncovered by congressional investigators, contains a list of 800 State Department employees who are suspect. The author says 30 per cent hold high-level jobs.

### Otepka Case—

Remember Otto Otepka? You may possibly have seen a short item about him in the paper a few months ago. There should have been headlines and a constant barrage on the networks. And there would have been, except that the news media are infiltrated with Socialists and Communists. Otepka was the top security officer in the State Department who was fired for cooperating with the Senate Internal Security Subcommittee in the investigation of our security situation. Bryton Barron reports that Otepka is still on the payroll of the State because Johnson and Rusk "are evidently afraid to act on his appeal lest it bring his reinstatement or blow the lid off the whole mess right in the midst of a national election."

A key defector from the Secret Police, a Pole known as Michael Goleniewski recently gave to two Congressmen the names of 10 Americans who are acting as secret

agents for the Communists. Goleniewski is reportedly in custody of the C.I.A., whatever that is. Hardly anybody but the enemy knows what it is, although it costs the American taxpayers a fabulous but secret amount of money. Killer Khrushchev remarked when one of our leaders was bragging about the C.I.A. Reports: "I read those before you do." I believe him. I don't believe our government has any secrets—except from the American people. Treason is the reason.

### Evidence—

According to Barron's informants Goleniewski has revealed: (1) that the C.I.A. gave \$1.2 million of our money to the Reds who redivided it among the K.G.B. (Soviet Secret Police), the American Communist Party and the Italian Communist Party; (2) that K.G.B. has placed agents in all U.S. embassies located in important cities abroad as well as in every U. S. Agency except the F.B.I. And so the Lefties are now smearing Goleniewski as they did Bang-Jensen before his "suicide." The Polish defector, they imply, has gone off his rocker. The American people will go off their rockers if they wake up in time.

One of the best waker-uppers available is John Stormer's sensational new book, "None Dare Call It Treason," now well over one and a half million sales (Order from American Opinion Bookstore, 2102 Pierce Avenue, Nashville, Tennessee; \$1.00).

"Treason doth never prosper, what's the reason? For if it prosper, None Dare Call it Treason."

Our State Department is like a poisoned candy bar: A yummy mixture of nuts, fruits, chocolate and jelly, with artificial coloring

and flavoring and a tasteless poison added. The American people must rise up in righteous indignation and demand congressional investigation of our State Department.
